SUBJECT: REQUEST FOR PROPOSALS FOR ON-CALL ENGINEERING SERVICES

Pursuant to the Request for Proposals (RFP), all proposers were to submit any questions regarding this RFP by no later than May 14, 2025. Questions were to be submitted in writing, and all questions and responses were to be posted on [the Department's website](#) and www.rampla.org.

Below is a list of questions received from prospective proposers, and the Department's response:

1. Q: Is it possible to send me a copy of On-Call Engineering RFP – Plan Holder List?

A: The list of firms that viewed and downloaded the opportunity on the Regional Alliance Marketplace for Procurement (RAMP), as of May 12, 2025, is attached to the end of this Q&A document.

2. Q: We have a question on the Port's On-Call Engineering Services RFP:

Do proposers need to provide a response to include all disciplines listed (i.e. civil; structural; electrical; mechanical; geotechnical; transportation; architectural/landscaping; control systems; industrial; fire protection; land surveyor; and corrosion), or can proposers provide a response for one discipline only but willing and able to include all other disciplines as needed for a specific Project Directive?

A: We expect responses to include all disciplines listed.

3. Q: Could you please share the list of plan holders of this RFP please?

A: Please see response to question No.1.

4. Q: We are a small business seeking to partner with prime consultant firms on this endeavor, but I can't see the prime or subcontractor outreach option on the RAMP website. Am I missing something?

A: The option to outreach on RAMP is not enabled for Harbor Department opportunities. We do not utilize the Business Inclusion Program outreach and instead require mandatory Small Business Enterprise Participation. You may

review the list of firms (attached to this Q&A) that viewed and downloaded the opportunity and reach out to these firms or any other firms through RAMP.

5. Q: Our team of building enclosure and waterproofing consulting engineers are very interested in partnering with the City, Harbor, and other Departments. While our company does not provide all engineering services identified in the RFP, we would like to know if we may provide you with general qualifications for our firm's services, including project managers' resumes and experience, other similar project experience, and our firm's rate sheet.

A: We encourage partnership amongst firms to form teams that will cover all disciplines listed.

6. Q: Is the Harbor Department willing to modify Section 2.13 of the sample agreement to remove the failure to conform to schedule language stricken below? This language is overly broad and does not take into account whether or not Consultant was the direct cause of any delays to the agreed schedule, causing the Consultant to be financially responsible for delays that may have been caused by others, including the Harbor Department. This language is also not consistent with the indemnity obligations under the agreement and is not the language we see in other contracts we have with the City of Los Angeles. If striking the language is not acceptable adding the force majeure terms as provided below would also be acceptable as then any such liabilities for failure to conform to the schedule would be limited to the extent caused by the Consultant.

2.13 Consultant shall perform the Scope of Work as expeditiously as possible and at the time or times required by the Engineer. Time is of the essence in the performance of the Scope of Work. ~~Consultant's failure to conform to any schedule set forth in a Directive shall entitle City to have services completed by others, shall obligate Consultant to pay City City's cost to undertake completion of such services, and shall authorize City to withhold such amounts from any payments otherwise due to Consultant.~~ Consultant's failure to timely perform in accordance with the schedule set forth in a Directive shall result in economic losses to the City, including, but not limited to, the timely bidding and awarding of contracts, completion of the Project and the use of the Project by City's Harbor Department, its tenants and the public.

Force Majeure

This Agreement is made in anticipation of conditions permitting continuous and orderly progress through completion of services. Times for performance shall be extended as necessary for delays or suspensions due to circumstances that the Consultant does not control. Notwithstanding any other provisions of this Agreement, the Consultant shall not have liability for any delays, expenses, losses, damages or be deemed in breach for liabilities which are caused by any factor outside of its reasonable control, including but not limited to natural disasters,

epidemics, pandemics, quarantine restrictions, adverse weather, or acts of the City, third parties, or governmental agencies.

A: No. Proposers must submit a signed letter confirming their firm's acceptance of all of the Standard Contract Provisions **exactly** as set forth in Attachment 1. If your firm cannot agree to the requirements exactly as set forth in this RFP, please do not submit a proposal. Any proposed exceptions or changes to the Standard Contract Provisions will result in your proposal being deemed non-responsive to that administrative requirement (refer to Section 3.4.6E of the RFP).

7. Q: Will the Harbor Department remove the requirement to provide a contractual liability endorsement under the Consultants professional liability policy as noted by the stricken language below? The requirement to provide a contractual liability endorsement for a professional liability policy exceeds the scope of commercially available professional liability insurance and is not something that any A&E firm can provide.

d) Professional Liability Insurance

Consultant is required to provide Professional Liability insurance with respect to negligent or wrongful acts, errors or omissions, or failure to render services in connection with the professional services to be provided under this Agreement. This insurance shall protect against claims arising from professional services of the insured, or by its employees, agents, or contractors, ~~and include coverage (or no exclusion) for contractual liability.~~

A: No. Proposers must submit a signed letter confirming their firm's acceptance of all of the Standard Contract Provisions **exactly** as set forth in Attachment 1. If your firm cannot agree to the requirements exactly as set forth in this RFP, please do not submit a proposal. Any proposed exceptions or changes to the Standard Contract Provisions will result in your proposal being deemed non-responsive to that administrative requirement (refer to Section 3.4.6E of the RFP).

8. Q: Will the Harbor Department modify the conflict-of-interest language in Section 11.1 as noted below? The term “may conflict with the interests of the City’s Harbor Department” is very broad and would be difficult to comply with. We have no way of knowing in general what the City’s Harbor Department interests would be. We can however agree to not enter into any contracts to perform work that may conflict with any work being provided for related to any specific project under this agreement for which the interest of the City’s Harbor Department would be known. The modification made is consistent with standard language in other City of Los Angeles agreements.

11.1 During the term of this Agreement, Consultant agrees that it will not enter into other contracts or perform any work without the written permission of the Executive Director where the work may conflict with the [performance of services under this Agreement](#) interests of City's Harbor Department.

A: No. Proposers must submit a signed letter confirming their firm's acceptance of all of the Standard Contract Provisions **exactly** as set forth in Attachment 1. If your firm cannot agree to the requirements exactly as set forth in this RFP, please do not submit a proposal. Any proposed exceptions or changes to the Standard Contract Provisions will result in your proposal being deemed non-responsive to that administrative requirement (refer to Section 3.4.6E of the RFP).

9. Q: Is it acceptable for SBE or VSBE subconsultants or vendors to be present in multiple winning teams?

A: Yes.

10. Q: Is font size smaller than 12 acceptable for some graphics or margin regions?

A: Yes.

11. Q: Is the use of 11 x 17 pages acceptable for some individual larger graphics?

A: Yes.

12. Q: Please confirm if proposed billing rates need to be based on federal or state audited overhead rates?

A: They do not.

13. Q: Does POLA allow escalation in the hourly billing rates for three-year period? Is there a maximum escalation percentage?

A: Yes, see sample agreement Section 5.3.

14. Q: Does only prime need to provide letters confirming the ability of firm to meet required insurance requirements or all subs need to provide this information also?

A: Yes, only the prime needs to provide a letter confirming ability to meet required insurance requirements.

15. Q: Please confirm if CEC Form 50, CEC Form 55, Iran Contracting Act Compliance Affidavit, and Letter of acceptance of standard contract provisions in Attachment 1/Executive Directive 35 is only applicable to prime consultant?

A: Yes, these forms should only be submitted by the prime. However, all firms, including subconsultants, should be listed on the required Consultant Description Form.

16. Q: In Attachment 1, 10.1 (a), [can we] request that Commercial General Liability clause replace “combined single limit” with “per occurrence and aggregate” consistent with insurance policy provisions?

A: Proposers must submit a signed letter confirming their firm's acceptance of all of the Standard Contract Provisions **exactly** as set forth in Attachment 1. If your firm cannot agree to the requirements exactly as set forth in this RFP, please do not submit a proposal. Any proposed exceptions or changes to the Standard Contract Provisions will result in your proposal being deemed non-responsive to that administrative requirement (refer to Section 3.4.6E of the RFP).

17. Q: In Attachment 1, 10.1 (c), [can you] clarify requirement that subcontractor’s employees would be covered under the subcontractor’s Workers’ Comp policy?

A: Only the Prime is subject to the insurance requirements.

18. Q: In Attachment 1, 10.1 (d), [can we] request “contractual liability” be removed from Professional Liability policy?

A: Proposers must submit a signed letter confirming their firm's acceptance of all of the Standard Contract Provisions **exactly** as set forth in Attachment 1. If your firm cannot agree to the requirements exactly as set forth in this RFP, please do not submit a proposal. Any proposed exceptions or changes to the Standard Contract Provisions will result in your proposal being deemed non-responsive to that administrative requirement (refer to Section 3.4.6E of the RFP).

19. Q: In Attachment 1, 10.2, [can you] clarify that the additional insured requirement excludes Professional Liability and Workers’ Comp policy?

A: Additional insured status is not required for Worker’s Compensation nor Professional Liability.

20. Q: Please clarify where the Port of LA would like the rates/fee information presented: on page 19 of the RFP, under 3.2 Proposal Submission it says fee proposal and hourly billing rates should be included in an appendix and will not be counted towards the page limit; however on page 25, under 3.5 Checklist for RFP Submittal Requirements it states Rates and Fees under the Proposal section. Please confirm that Rates and Fees should be included in an appendix not counted towards the page limit.

A: Rates and Fees should be included in the appendix.

21. Q: B) Insurance Verification Letter

Do the subconsultants have to provide the same insurance requirements?

A: No. Only the Prime is subject to the insurance requirements.

22. Q: 1.1 Brief Overview of the Project

What is the maximum value of this contract?

A: Five million dollars.

23. Q: 1.1 Brief Overview of the Project

How many firms will be awarded this contract?

A: Approximately five contracts will be awarded.

24. Q: For the City of Los Angeles: Bridge On-Call [Request for Proposals], it required prime consultants to have a CPA audited overhead rate report in order to be awarded a contract. Will that be needed for the award on this On-Call Contract?

A: No.

25. Q: Could you please confirm that the term “services” used throughout the RFP is reflective of the Project Scope of Work (Tasks 1 through 11) and not specific projects in the CIP?

A: “Services” are not tied to specific projects in the CIP.

26. Q: Reference pages 21 and 22 of the RFP. The RFP states: “Services proposed to be provided. Your firm must be willing and able to provide all services described herein in all engineering disciplines described herein, either directly or through sub-consultants, or else your proposal will not be considered”. On page 22 the RFP states: “Please state if there are any services described herein that your firm cannot or will not provide, either directly or through sub-consultants.” Can you clarify these two statements? Are firms able to state if there are certain services we would not provide or certain project types we would not provide without being disqualified per the first statement?

A: We expect responses to include all services listed through your firm and team of subconsultants.

27. Q: Reference Section 2 of the Sample Agreement (Services to Be Performed by Consultant). Prior to the issuance of a Task or Subtask by the Engineer to Consultant, does the Port generally allow the Consultant to provide input to the scope of work, schedule, and budget of the Task or Subtask?

A: Yes.

28. Q: Are front and back covers, as well as section dividers, cover letter counted in the page limit?

A: No.

29. Q: Can information shown in a graphic, table or exhibit be presented in a font size smaller than 12?

A: Yes.

30. Q: Can proposers include 11 x 17 pages for larger graphics, charts, and tables? If so, will they count for one or two pages?

A: Yes, proposers can include 11x17 pages and they will count as one page.

31. Q: Page 23 of the RFP indicates that Aircraft Liability Insurance is required when use of drone(s) is/are utilized. Please confirm whether Aircraft

Liability Insurance is not required if the prime and its subcontractors proposing on this on-call do not need/intend to utilize drones.

A: This coverage is not required if drones are not used.

32. Q: Do both the Prime Consultant and each of their proposed sub-consultants need to include the following, or just the Prime Consultant?

- **Litigation brought by or against the firm in any U.S. jurisdiction in the last five years. Provide information regarding causes of action and status or final resolution, as applicable.**
- **Affidavit of Company Status form**
- **Iran Contracting Act of 2010 Compliance**

A: Just the Prime consultant.

33. Q: Based on the RFP, Port of Los Angeles allows escalation in the hourly billing after a 12-month period but provides limitation. What are the limits to rate escalation?

5.3 If the term of this Agreement exceeds one (1) year and if Executive Director so consents in writing, Consultant may increase the rates set forth in Exhibit "F" after each twelve (12) months of service as long as such increases (a) are equal to or lower than the rates Consultant charges to other municipal or governmental entities and (b) represent an increase of no more than _____ percent (___%) over the rates charged during the prior twelve (12) month period. Such increases in rates, if any, shall not result in increases of the amount of total compensation payable under this Agreement set forth in Section 5.1. In the event of any such rate increase, Exhibit "F" shall be revised, replaced and renumbered as Exhibit "F-1," Exhibit "F-2," etc., as applicable.

A: Rate escalation is based on the Consumer Price Index (CPI) and will be established when the agreement is finalized.

34. Q: There are concerns that file size may exceed the limit allowed to be emailed. What is the file size limit for emails submitted to Port of Los Angeles? Can proposals be submitted via a file share link?

A: The default file size maximum for the Harbor Department's Outlook e-mail account is about 40GB. Proposals submitted as an e-mail attachment are preferred.

35. Q: Are front and back covers, section dividers, and table of contents counted in the 40-page limit?

A: No.

36. Q: Can information shown in a graphic, table, or exhibit be presented in a font size smaller than 12?

A: Yes.

37. Q: Can proposers include 11 x 17 pages for larger graphics, charts, and tables? If so, will they count for one or two pages?

A: Yes, proposers can include 11x17 pages. They will count as one page.
