To: Potential Proposers

ADDENDUM 1 – DODGER STADIUM TRANSPORTATION STUDY (TOS #DD-101)

The City of Los Angeles Department of Transportation (LADOT) hereby issues this Addendum 1 for all potential proposers for the Speed Safety System Pilot Development and Outreach of Impact Report and Use Policy.

QUESTIONS RECEIVED FROM POTENTIAL PROPOSERS

- 1. What are the project participation percentages for MBEs, WBEs, SBEs, EBEs, and DVBEs? Can you please provide the MBE/ WBE/ SBE/ EBE/ DVBE goals for this project so we can develop a team to meet the City's needs for this project.**

Answer: The Department of Transportation anticipated percentages are: MBE 18%, WBE 4%, SBE 25%, EBE 8%, and DVBE 3%. These are utilization goals for this Task Order Solicitation, however, consultants are not required to meet these goals in order to be considered for award. If proposers cannot meet these percentages, they will not be disqualified.

BIP outreach which is completed and documented in RAMP is adequate for meeting this requirement. As long as the BIP outreach is completed, the proposal will be deemed responsive. Please refer to TOS DD-101 Attachment C Business Inclusion Program Outreach Instructions and Forms.

The BIP FAQs BIS Frequently Asked Questions Question #9 (<https://bca.lacity.gov/bis-frequently-asked-questions>) states:
Will I fail BIP Outreach if I do not meet the MBE and WBE percentages?

Answer: No. The MBE and WBE percentages are anticipated participation levels. You must show adequate outreach efforts documenting your efforts to obtain the MBE and WBE percentages.

- 2. Please provide a list of the consultants that are part of the on-call bench contract in the Transportation Planning and Engineering and Design Consulting categories.**

Answer: An Award List by Category has been posted to the RAMP site for the On-Call Professional Consultant Services bench list (RAMP ID 209359). Only those consultants listed in the Transportation Planning or Engineering and Design Consulting categories can submit proposals. Please see the complete list of Consultants in Attachment A.

3. Can you provide a link to the recording and a list of the participants?

Answer: [Pre-bid Presentation](#) Please see attachment B for a list of the participants.

4. Are you able to share the funding source for this project? Is this grant funded or directly through the City?

Answer: The project is funded by the City of Los Angeles.

If you have any questions, please contact Robert Sanchez, at robert.sanchez-jr@lacity.org.

Sincerely,

[Jesus Serrano \(Aug 7, 2025 15:29:42 PDT\)](#)
